

Prove Your Commitment to Privacy, Build Trust, and Gain a Competitive Edge.

We've worked hand-in-hand with the UK Information Commissioner's Office (ICO) over four years to develop an ICO-approved GDPR audit and certification scheme. Our tiered approach helps organisations of all sizes achieve measurable, certifiable GDPR compliance — without unnecessary complexity.

Build trust

Show customers you care about data privacy.

Reduce risk

Minimise security incidents with strong safeguards.

Stand out

Gain a competitive advantage as a trusted organisation.

Protect what matters

Handle data responsibly and transparently.

Work smarter

Improve data management and operational efficiency.

Be prepared

Respond quickly if incidents occur.

Future-proof

Privacy isn't optional; it's essential.

Why it matters:

- Show customers you care about privacy
- Protect data & reduce security incidents
- Improve efficiency & be ready for anything
- Stand out as a trusted professional

Three Certification Tiers

Essential

- Assisted self-assessment
- 40% coverage of ICO controls
- Cost-effective starting point
- No on-site audit required

Advanced

- 70% coverage of ICO controls
- Higher standards for governance & risk management
- Includes privacy-by-design, DPIA cycle, and breach handling

Elite

- 100% coverage – full compliance & governance
- UKAS certification and full external audit
- Highest level of assurance and reputational value

Your path to Compliance

- **Start with Essential** to build a strong foundation.
- **Progress to Advanced** as your processes mature.
- **Achieve Elite** for full governance and regulatory alignment.

**Get Certified.
Gain Trust.
Stay Ahead.**

PRIVACY IS NOT OPTIONAL -
it's essential!
