

# MSP Compliance as a Service (CaaS)

Powered by

**thetrust  
bridge**™

**In this digital age, all organisations are concerned about:**

- Increased number of ransomware attacks, hacks, virus, phishing attacks.
- Staff making mistakes exposing the company to risk.
- Supply chain vulnerability: risk exposure.
- Security protocols now required by their clients/customers when negotiating contracts.
- Losing contracts due to lack of appropriate security protocols.

**Transform your MSP into a Compliance Powerhouse**

**Clients want more than IT support**

**The solution is not just hardware and software:  
Your clients need  
Strategy  
Processes  
Policies**

**Partnering with The TrustBridge gives you several significant benefits:**

- Enhanced Client Security Service
- Increased Revenue Streams
- Competitive Advantage
- Improved Client Retention
- Risk Mitigation
- Operational Efficiency
- Revenue Scalability

# GDPR Certification for SMEs

## Prove Your Commitment to Privacy, Build Trust, and Gain a Competitive Edge.

We've worked hand-in-hand with the UK Information Commissioner's Office (ICO) over four years to develop an ICO-approved GDPR audit and certification scheme. Our tiered approach helps organisations of all sizes achieve measurable, certifiable GDPR compliance — without unnecessary complexity.

### Build trust

Show customers you care about data privacy.

### Protect what matters

Handle data responsibly and transparently.

### Reduce risk

Minimise security incidents with strong safeguards.

### Work smarter

Improve data management and operational efficiency.

### Stand out

Gain a competitive advantage as a trusted organisation.

### Be prepared

Respond quickly if incidents occur.

### Future-proof

Privacy isn't optional; it's essential.

[www.thetrustbridge.co.uk](http://www.thetrustbridge.co.uk)

## Why it matters:

- Show customers you care about privacy
- Protect data & reduce security incidents
- Improve efficiency & be ready for anything
- Stand out as a trusted professional

## Three Certification Tiers

### Essential

- Assisted self-assessment
- 40% coverage of ICO controls
- Cost-effective starting point
- No on-site audit required

### Advanced

- 70% coverage of ICO controls
- Higher standards for governance & risk management
- Includes privacy-by-design, DPIA cycle, and breach handling

### Elite

- 100% coverage – full compliance & governance
- UKAS certification and full external audit
- Highest level of assurance and reputational value

## Your path to Compliance

- **Start with Essential** to build a strong foundation.
- **Progress to Advanced** as your processes mature.
- **Achieve Elite** for full governance and regulatory alignment.
